
Fat-Sofa Outdoor

SOFAS

Patricia Urquiola

Description

The Fat-Sofa Outdoor collection stands out for its rounded, soft and sinuous shapes, echoing the features of the indoor system of the same name. Its fully padded seat is accompanied by a back with a metal frame that supports the original weave, made of dove grey coloured twisted polyethylene fibres. A technique with a graphic effect and macro dimensions that make the design unique, respecting the designer's idea of lightness and transparency, and putting the furnishings in an open "dialogue" with the surrounding environment. The Fat-Sofa Outdoor collection consists of an in-line sofa in two sizes and a large relaxing seat. The series is complemented by an armchair with backrest in two heights and different sized ottomans.

Technical information

Frame:

aluminium

Frame finish:

grey polyester powder painting

Interlacing:

tortora polyethylene

Internal frame:

tubular steel and steel profiles, polystyrene foam

Internal frame upholstery:

Bayfit® (Bayer®) flexible cold shaped polyurethane foam, shaped polyurethane of different density, water repellent polyester fibre cover

Internal frame (FA61P-FA76P):

polystyrene foam, MDF wood fibre panel with Umidax® high humidity resistance

Internal frame upholstery (FA61P-FA76P):

Bayfit® (Bayer®) flexible cold shaped polyurethane foam, shaped polyurethane, water repellent polyester fibre cover

Back cushion:

polyester fibre, cover in water repellent polyester fibre

Bottom base:

100% polyamide fabric coated PVC, black PVC trimming

Feet:

black thermoplastic material

Cover cloth:

polyester on synthetic support

Cover:

fabric in limited categories
