
Febo

ARMCHAIRS

Antonio Citterio

Description

The Febo armchairs are a traditional type of seat. Sharing the same soft, elegant lines, they come in different versions, with a more or less enveloping shape, with a high or low backrest, and with or without armrests. The fabric or leather upholstery is embellished by visible blanket stitching and, in a sophisticated single-material version, also incorporates the feet. The base frame also comes in solid oakwood in different finishes. The Febo series includes sofas, chaise longues, chairs, beds and ottomans.
