Random Light II

BERTJAN POT

Random Light II transmits a feeling of simplicity, lightness and a touch of magic in a contemporary style. Due to how they're made, each Random Light is unique. They're never completely round, yet always beautifully transparent and delicate.

Detailing

The open and random texture of the Random Light plays with shadow while it emits a soft glow.

Dimmer

For fluent dimming behaviour we advise a dimmer that is compatible with the following specs.

DIMMER TYPE

Mains dimmable with compatible light source

Please note the functioning of the dimmer and the power supply combination can never be predicted, it always needs to be tested in practice.
